

## 2025 Professional Fees

Legal professionals may provide advice by phone, in conference and in writing. To do so usually requires documents to be reviewed and the volume of documents and the amount of time required usually varies considerably from one matter to the next. Even for the same type of matter, each client will have different needs in terms of the amount of explanation and advice provided. Accordingly, we charge for all our professional time on a time-incurred basis, including any initial telephone calls or meetings and this time is charged in 6 minute units or part thereof. Travel to out of office appointments is charged at 50% of the rates below.
